

DUBOCE TRIANGLE

Hand-delivered to **3000** households and businesses bi-monthly

Monday, August 8, 2016 7:00 to 9:00 pm **PUBLIC MEETING**

CPMC/Davies Hospital, Gazebo Room Castro Street & Duboce Avenue (outside, ground-level entrance from plaza between North and South Towers)

MEETING AGENDA:

- Meet your neighbors (7:00 7:30)
- Presentation from Dept of Public Health regarding the HOTeam
- Update on Market St traffic and pedestrian safety improvements
- Update on street lighting and street trees
- Update on crime statistics from the Crime Analysis Unit

DATES TO REMEMBER:

Tuesday, August 2, 5 - 8 pm National Night Out with Park Station. Photo Center Exhibition Room and Upper Lawn and Plaza.

Tuesday, August 9, 6 - 7 pm Monthly Park Station Community Meeting. Park Station Community Room.

Saturday, August 13, 10 am - noon Friends of Duboce Park Volunteer Day. Contact Rose at rose@friendsofdubocepark.org or 415-255-8370.

Saturday, September 10, 9 am - 3 pm 19th Annual Friends of Duboce Park Tag Sale.

Sunday, September 11, noon - 5 pm DTNA 2nd Annual Block Party on Noe St between 14th and Henry.

Tuesday, September 13, 6-7 pm Monthly Park Station Community Meeting. Park Station Community Room.

SFMTA Presents Plan, No Input Welcome

SFMTA plans to spend \$5.5 million dollars on Upper Market Street safety improvements

Last year we reported on the \$2.5 million dollars available for Upper Market Street Safety Improvements resulting from the city imposed development impact fees on the recent seven residential development projects along Upper Market Street. These fees mitigate the impact of new development on public services, infrastructure, and facilities. That number has grown to \$5.5 million dollars, which will have a direct impact on Duboce Triangle. The money will be spent by SF Municipal Transportation Agency (SFMTA) to make all modes of transportation safer and to restructure parking for commercial purposes.

Improvements will extend from Octavia Street to Castro Street. SFTMA describes their plan as a proposal to address safety on the corridor that provides a balanced approach, combining street and sidewalk upgrades, potential circulation changes, and ideas for a safer, more efficient use of curb space. SFMTA held an open house on May 5th and then attended DTNA's general meeting in June. Since that time they

have decided to delay circulation changes yet move forward with roadway, sidewalk and concrete changes. The plans can be viewed at https://www.sfmta.com/sites/ default/files/projects/2016/Upper%20Market%20Street%20Safety%20Project%20 Proposal%20072716.pdf.

At the DTNA general meeting SFMTA gave a comprehensive professional presentation. It was so professional that they seemed to forget they were there to not only inform but also to engage in dialogue with the residents, who walk, bike and drive our streets everyday. When SFMTA had the opportunity they didn't listen to the residents. They did not seem at all interested in what the people of Duboce Triangle had to say. Instead they have repeatedly displayed tunnel vision that includes only their professional perspective. The staff of SFMTA is highly qualified professionals, many with years of experience. However, their lack of engagement with the community of Duboce Triangle is very disappointing and unacceptable.

DTNA Influences Design for Home Restaurant Replacement Building

When the building that will replace the defunct Home Restaurant at Church Street and Market Street was approved at the Planning Commission on February 4, DTNA secured a continuance of six weeks in order to work on design issues with the developer, Brian Spiers (who also developed the Linea building at Dolores and Market). DTNA's Land Use Committee was concerned that an originally interesting design had been "dumbed down" by one-size-fits-all input from the Planning Department, resulting in a building that, much like the original design for Linea, seemed more appropriate for a Southof-Market office building than for a residential neighborhood.

Land Use Committee member and local architect Tom McElroy spoke at the Com-General Meeting, outlining some ways the building could be made more interesting. The final facade design pres- ments with uniform finishes only larger but also disharmo-Use Committee meeting.

both operable and fixed windows, ceiling heights, and projecting bay windows fits well within both the Market St corridor and the mixed-use block of 14th Street on the opposite side (see Illustration II). High quality materials have been encouraged and required by the Planning Commission, and items such as the use of tinted window glass (which in DTNA's view is part of the reason that ground floor retail space at Linea remains vacant) will not be permitted.

In DTNA's view the new de-

sign is a marked improvement from the previously proposal, which had an overcomplicated façade. The previous façade was broken up into large separate volumes and planes, with various treatments from one area to the next. It had tall vertical expanses of continuous bay windows and flat materials, which would have actually made the building appear not nious. Instead we should get a

Outdoor Movie Night in Duboce Park -Saturday, October 8, 7:30 pm

Outdoor Movie Night returns to Duboce Park on Saturday, October 8 with the family-friendly and animated "Inside Out" (2015, rated PG). Movies with a San Francisco theme have been shown at all of our previous Movie Nights, including "Pursuit of Happyness" in 2010, "The Rock" in 2011, "The Incredibles" in 2011, and "Mrs. Doubtfire" in 2012, "Invasion of the Body Snatchers" in 2013, "So I Married an Axe Murderer" in 2014, and "Milk" last year.

"Inside Out": Growing up can be a bumpy road, and it's no exception for Riley, who is uprooted from her Midwest life when her father starts a new job in San Francisco. Like all of us, Riley is guided by her emotions - Joy (Amy Poehler), Fear (Bill Hader), Anger (Lewis Black), Disgust (Mindy Kaling) and Sadness (Phyllis Smith). The emotions live in Headquarters, the control center inside Riley's mind, where they help advise her through everyday life.

The movie begins around 7:30 pm. The event is free and is sponsored by Friends of Duboce Park and San Francisco Recreation & Parks.

each week between the two locations, starting as early as 6 a.m. and running as late as 9 p.m., with a variety of programming options. Their programs include Performance classes (a traditional CrossFit style strength and WOD), Conditioning classes (a bootcamp style cardio workout), Olympic Weightlifting, and Mobility Recovery Position classes (focused on improving and maintaining mobility).

Along with group classes, Flagship offers private coaching at both locations with any of its first-rate coaches, and special programs for small groups and teams. With enough feedback, Flagship hopes to offer a CrossFit Kids program in the future for neighborhood families.

Flagship coaches have begun a vegetable and herb garden in the outdoor spaces of the lot, and hope to transition more of the unused space into a community garden for their members and future youth programs.

The new larger space has allowed Flagship to expand its special programs and events. Since opening they've hosted multiple Pride WODs (a special workout open to all to celebrate the LGBT community), the 2016 PWA Weightlifting Championships, a Freestyle Connection Seminar, and a gymnastics session for students from the San Francisco Friends School, as a donation to the school's charity auction. They look forward to continuing to develop their special programs and events, and invite inquiries to ways they can work with the neighborhood to do so.

You can sign up for a free trial class at either location via their website (flagshipcrossfit.com), or for more information or to reach out, email team@ flagshipcrossfit.com.
